Notes:

- It seems he has tried to implement a Cutter in his last two starts, maybe because he wanted to add a fourth pitch since being reinstated as a starter (he had been a reliever for about a month before)
- Fastball has a good amount of horizontal movement, and tilt is around 2:00, suggesting it is more of a 2-Seam
- Fastball used 65% of the time overall, and still over 54% when ahead in the count
